Jerseys! Jerseys! Jerseys! at McCullagh & Galbraith's.

Choice cigars, plug and fine cut tobacco cheapest in the city at W. T. Van Kirk's.

12 pounds best granulated sugar for \$1, at W. T. Van Kirk's.

Hamburg embroidery sale at McKee & Bro's.

Best kerosene oil 12 1/2 cents at W. T. Van Kirk's.

Sugar, tea, coffee, flour and all staples and fancy groceries at cost, for cash, the next thirty days at W. T. Van Kirk's.

Over ten thousand lot of the celebrated Fox Ball cigars, just received at Whitton & McLean's.

Germany canary birds, splendid singers, at Stearns & Baker.

Ogden House, Chicago, Ill., \$1.50 per day, excepting parlors. Corner of Washington and Franklin streets.

D. Kuntz & Sons, Proprietors.

Smoke Cousin Kate 10 cent cigar.

The fine home of R. M. Hollister in the third ward for sale. Special inducement if sold at once. Apply to C. E. Bowles.

For cough medicines go to Eldredge's.

One of the best built homes in the fourth ward, will be sold, if applied for at once, for \$1,200 to enable the owner to go west. SEE E. BOWLES.

J. H. Gately furnishes ice by the load to any part of the city.

For Sale—3 good work horses. Enquire at Jackman's livery stable.

22 acres of good land with house, barn, etc., in 3d ward near Main street for \$2,600. Don't buy land until you have seen this. C. E. BOWLES.

New styles in collars and lace just opened at McKee & Bro's.

Another invoice of Hamburg embroderies marked at the same low prices McKee & Bro. have been selling them for.

New goods in all departments every day at McKee & Bro.

For Sale—The home of G. W. Hayes in the third ward, furnished or unfurnished. Apply at residence.

Gents' shirts and collars at McCullagh & Galbraith's.

Brainard's medicated wood feathers, and pillow down, for sale at the second hand store of Sanborn & Canfield. Also six walnut, brass arm, veneered, back chairs and rockers to match.

New assortment of combs, tooth brushes, toilet soap and face powders, at Palmer & Stevens' drugstore.

We have the best assortment of celluloide trusses in the city. At guaranteed. STEARNS & BAKER.

Go to Eldredge's for your drugs.

BRIGADES.

—Pleasant day, this.

—Monday is St. Patrick's Day.

—The maple sugar season has commenced.

—To-morrow will be the third Sunday in Lent—improve the opportunity by attending church.

—There was a large number of people in the city to-day, and business was quite brisk.

—Mrs. Jeanette Hemmingsway, of South Main street, is confined to her bed by a severe illness.

—The members of the Rock county tobacco association are holding a meeting this afternoon.

—Mr. B. F. Dunwiddie will give a bi-ble reading before the Y. M. C. A., Sunday afternoon at 3 o'clock.

—Mr. W. A. Eager, of Chicago, is in the city to-day, shaking hands with his many friends, and is enjoying robust health.

—The water in Rock river at this point is slowly on the rise, but the snow is melting so gradually that an overflow is not feared.

—Ex-Sheriff H. L. Skarlem and Mr. G. Springer, his partner, have gone to Rockland county to purchase horses for the Dakota market.

—Mayor Schetzel and family, of Sioux Falls, D. T., and Mr. Bremner, of Milwaukee, are in the city visiting their uncle, Mr. P. Knippenburg, of the second ward.

—Dorniston has received a fresh supply of choice canned goods, among which will be found some choice New Jersey baked sweet potatoes, something new in this city.

—The funeral of the late Mrs. Fanny Cross will take place to-morrow afternoon at three o'clock, at the home of her mother, Mrs. Horoy, near the Norwegian church in the first ward.

—The cause of the fire department will be held at the fire department house at 7:30 o'clock this evening. It now looks as if the present chief and assistant engineer would all be unanimously re-elected.

—After enjoying about one hundred days of excellent sleeping, our people are beginning to lay up their sleighs and cutters, and returning to wheeled vehicles. The sleighing in the city is about played out for this season.

—The April number of Frank Leslie's Popular Monthly has been received by R. V. King. It is an admirable issue and among the prominent illustrated articles, "How the standard time came about," and "The Palace of the Tuileries."

—There is considerable speculation among sporting men regarding this season's flight of wild pigeons, many anticipating that Southern Wisconsin will be their nesting place, as it has been a good many years since the birds made their summer here.

—In the show window of Mr. Warren Collins' music store, there is exhibited a marionette painting, handsomely framed, which is the production of Miss Stella Stafford, of this city. Miss Stafford has natural talent in this line, as this painting is an evidence, and warrants the prediction of her many admirers that she will prove a success, and attain a high position among our home talent.

—The wolf that stalketh abroad at noon-day and howlth for amusement in the twilight, has evidently skipped for more congenial climes, at least the party are of that impression who went out yesterday in low shoes and striped stockings, to walk around on the trail. If the Mount Zion people want their wolves hunted they ought to be considerably enough to find a good side walk in the woods and keep off the snow. It is hard enough to run a wolf down under favorable circumstances, but utterly impossible when the walking is bad.

—There was a very large attendance at the annual masquerade of the Bovey City Rides last evening, and quite a number appeared in very handsome characters. The affair was a flattering success, and the Rides will clear in the neighborhood of one hundred dollars. The supper was furnished by Evanson & Parker, a choice best style, and was all that could be desired. Anderson's orchestra furnished the music, and the merry dance continued until an early hour this morning, all enjoying themselves to the fullest extent. The Rides cannot be expected in entertaining their guests on such occasions.

—Our friend Horard of the Jefferson County Union, is a man noted for various stunts. Nature endowed him with many embellishments not forgetting a nasal organ of some prominence. There came into his office one cold morning last winter, an Irish woman, somewhat the worse for early potatoes. Addressing the genial editor she said: "Misther Horard, would yee lend me four dollars to buy a cord of wood, we haven't a sheet in the house, and me children are most froze; indade they are."

Looking up at her, the reply came in a pleasant voice: "Well, Mary, if you haven't any money to buy wood, you seem to have found enough somewhere to warm up that nose of yours." "Nose, is it? Sure, Misther Horard, it would took forty cords of wood to warm your nose, so it would be atty comfortable; indade it would." The forty cords were ordered and the result of the experiment is yet to be developed.

—We hear of no public demonstrations in preparation for the coming of St. Patrick's day, in our city; but the day will be celebrated in a more quiet way, which, with the "meeting of the green," will serve as well to excite the reverence and devotion in the Irish heart for the memory of St. Patrick, Ireland's patron saint. There will be high mass at St. Patrick's church at 10:30 o'clock on Monday, at which Rev. Father O'Keefe, of Watertown, will preach an appropriate sermon; and in the evening at 7:30 o'clock, Rev. Father McGinley will close the exercises so well begun, by fittingly referring to the virtues of the Saint, and explaining why the 17th of March is "the day we celebrate." St. Patrick's day will be duly celebrated in St. Mary's church by religious services in the morning, at 10 o'clock, when the Rev. H. R. Murphy, of Clyman, this state, will speak on St. Patrick and his labors; and in the evening, at 7:30 o'clock. Both churches should be well patronized, so all are heartily invited to attend.

THE WOLF HUNT.

One of the Most Successful Hunts of Modern Times.

The Vermonts Have Searched in Stock County.

Without doubt the great wolf hunt which took place yesterday at Mount Zion, was the most successful of any previous attempts at running down the vermin in Rock county. At an early hour yesterday morning, some fifteen or twenty ambitious hunters started from this city to join the main force at Mr. Leake's, near Mount Zion; and at nine o'clock some seventy-five or one hundred persons had congregated at the rendezvous, all armed and equipped to make war on the pesky wolves. Some little time was spent in arranging the plans of the hunt; and just before noon the council of war was ended and the plan made known. The woods, which are about thirty miles in length by about four in breadth, were divided a little too much territory to surround, and it was concluded to make a forward movement in line—first to the better protection of the hunters. The honor of protecting the left flank of the squad was given to our friend Hiram Bump, who was armed with a modern hush basket from Denmark, and a double-barrel breech-loading shot gun. The right was given to Hube Toemans, who, armed with a pair of the largest size gas pipe tongs, was assigned to a commanding position on the top of a barb wire fence post to the southeast of the summit of the Mount, from which position he obtained a good view of the open prairie to the south, and could easily discern any approach of the wolves from that quarter. Frank Peterson, with the ammunition train, was given the center, and took his position in the observation line. With this formation, the ambitious hunters commenced the advance. Dr. Horne struck a last year's trail in quick time, and immediately signalled to the left flank to bring up the reserve. Bump, by this time had reached an old straw pile, where he and young McKinley were building a stockade out of hazel brush, and his coffee not yet having reached the boiling point, sent word back that the left was too much exposed to the north wind, and no help could come from that quarter until after sundown, but suggested that Frank Sherer had a gun bag full of something down by the ammunition wagon. This kind of Plan J. J. Porro treatment rattled the Doctor and he utterly refused to advance further into the woods until he was demonstrated to his entire satisfaction who stole his heavy building timbers left on River street while he was enjoying the season at Mobile bay. By the time this difficulty had been settled a member from the Lu Prairie company galloped up to the left flank and informed Bump that there was unmistakable signs of a number of wolves in a brush pile half a mile to his rear, and for him to keep a close watch. At this report McKinley started for the center, and Bump, relying on the sun for his compass, undertook to surround the brush pile, and place the left flank on the Bower City side, for self protection. In making this movement, he mistook the route, and soon found himself about two miles in advance of the right of the column, and when informed by a wood-chopper that no wolves had been seen on that eighty in two years, he inquired the road to Mount Zion, but was so turned around that he finally lost the wood-chopper that he would give him two dollars to pilot him in sight of the high school dome. While ascending the eastern slope of the mount, Bump discovered Frank Sherer on the top of a large brush pile yelling with all his might. Frank had struck a fresh trail, the Jacksonville party rallied on Frank, completely surrounding the brush pile. Frank was positive he had something, but just what he did not know. Frank Peterson came up with the ammunition train, and suggested that a hand grenade fire extinguisher be exploded, which was acquiesced in. The explosion had no effect on the brush, but rather discouraged Frank. Bump said he had hunted wolves before, and did not believe they were in such a place, but thought if such was the case, the party ought to get on top of the brush and have a war dance. This would frighten them out. This plan was adopted, and at the first whoop out jumped one of the largest and heaviest rabbits in the woods. The party had all stacked their guns previous (to climbing on the brush pile, and as they could not reach their weapons in time—the rabbit made good its escape. Night was now coming on and by mutual consent, the party fell back on the reserve, to hear reports. The different squads all made about the same report—they had had considerable hunt, in fact some of them had hunted all day—and had not even been lucky enough to find a single hush basket. They were all satisfied, however, that all the wolves had been hunted out of Rock county, and the hunters disbanded. The Jacksonville party returned by different routes to their respective homes.

Mr. Source's Lecture.

The best lecture heard in Jacksonville since Mr. Baecher spoke in the Baptist church in 1876, was that of the late Robert Nourse, of La Crosse, on "John and Jonathan"—John representing England, and Jonathan the United States. The speaker was introduced to a rather small audience by the Rev. Dr. Hodge, a very facetious manner; and Mr. Nourse began by saying that he thought the audience would be better pleased if the doctor would deliver the lecture instead of himself.

After describing in a very real and humorous way the physical difference between John and Jonathan, and the vastness of one country and the dense population of the other, he gave a graphic and an intensely interesting description of London—the largest city in the world, covering an area of 621 square miles, and containing a population of over 5,000,000. After speaking of the very limited knowledge the English people had of the United States, and in many respects how little the Americans understood England, he went on to show what England had done for America and what America is doing for England. He made an able defense of the English civil service system, of the postal system connected with postal savings banks and postal telegraph, improvements that are progressive enough to make American sentiment blush with shame. He said England had given America religious liberty, though John Calvin had given us much of our literature, the locomotive, the duds, and hundreds of millions of dollars for raw material and manufactured articles. America had, in return, given England the telegraph, the telephone, the steamboat, the organ, the sewing machine and patent medicines for all diseases.

Throughout the admirable lecture was a rich vein of humor, sharp bits and pleasing anecdotes, which frequently caused the audience in laughter. We understand that Mr. Nourse has been requested to return to Jacksonville in the near future and deliver another lecture, and that he has promised to do so.

Papillon Skin Cure, (Papillon Catarrh Cure, Papillon Cough Cure, manufactured by the Papillon Manufacturing Co. of Chicago, Ill., and advertised in this paper is for sale by Palmer & Stevens and Prentice & Evenson.

From Prof. Salmon.

At the request of Mr. Salmon, late professor of the Lojpeic conservatory of music, we publish the following:

MILWAUKEE, March 10th, 1884.

Miss Amy Sutherland—

Allow me herewith to express to you my heartfelt thanks for the valuable services rendered at my concert of recent date, in your city. I deem it unnecessary to repeat what I have so often said to you concerning your brilliant talent and wonderful ability as a pianist, will therefore only add, that I sincerely hope the good people of Jacksonville will appreciate the "artists" they have in their midst. As you have adopted my own method so perfectly, you will be able to continue in the work I began in your city, and the pupils who are fortunate enough to secure your services in instructing them will have reason to congratulate themselves. Our prominent musicians have requested me to arrange a concert here in Milwaukee, in which they may have the pleasure of hearing you play; will you come? If so, will suggest that the concert take place the first part of April. Again, my sincere thanks.

Yours in high esteem,

THEODORE SALMON.

Miss Sutherland would announce that all who are desirous of studying with her, should apply at once. Address, Jacksonville, Wis.

Down's Elixir is the best remedy known for the cure of colds, colds and consumption. Sold by Stearns & Baker.

Resolutions passed March 14, 1884, by the Ladies' Benevolent Society, on the death of Mrs. Nancy Whitton.

WISCONSIN: Since our last gathering our beloved sister, Mrs. Nancy Whitton, the senior member of our benevolent society, has been suddenly transferred from active service in the church militant to that of repose and worship in the church triumphant. Therefore

Resolved, That in her death we have sustained an irreparable loss; always ready for any labor of love or charity, and accomplishing in memory of a life so blessed, and will ever be a stimulus to increased activity to us, her associates. While we miss and mourn her presence and ministrations here, we rejoice that she is enjoying the full fruition of her Christian life, in the presence of the Savior she loved and served so faithfully, and dear ones gone before.

Resolved, That these resolutions be inserted in the records of this society, and a copy sent to the family.

Mrs. G. EDWARDS.

Mrs. L. M. JEROME.

Mrs. J. T. WILSON.

Mrs. A. A. JACKSON.

Committee.

Quick! Sure! Safe!

This is the verdict of the sufferer from Rheumatism or Neuralgia after a faithful trial of Anker-Pain-Expeller. Mr. and Mrs. Michael Gell of Chicago, join in writing: "Our daughter, Miss Mary, was stricken with Rheumatism of the most violent nature. Several physicians were forced to acknowledge that the disease baffled their skill. After two doses of Anker-Pain-Expeller, given before the pain was too great to sleep, she slept for the first time in eight months without pain. Continued use of it has made her nearly well."

At seven o'clock this morning the thermometer registered 15 degrees above zero. Clear with west wind. At one o'clock p. m. the register was 42 degrees above zero. Clear with west wind. For the corresponding hours one year ago the register was 19 and 24 degrees above zero.

A Temperate but Satisfying Drink.

There has been of late years a demand for roasted coffee of the finest quality as to bouquet and strength in the cup. Dealers, in their efforts to supply this demand, have ordered all sorts of combinations, such as Mocha and Java, Mocha and Java, etc., without obtaining the elixir they sought. We take pleasure in informing our readers that after many years of search in the markets of the world, Messrs. Bell, Conrad & Co., the enterprising and reliable tea, coffee and spice men of Chicago, have secured a coffee that is a breakfast in itself. This coffee is their Plantation Java, which we take pleasure in recommending to our readers as the finest coffee grown, possessing strength and flavor the two essentials of a perfect coffee. This Plantation Java is strictly a private growth, and by special arrangement Messrs. Bell, Conrad & Co. will control all the crop. They guarantee the coffee to suit the most fastidious consumer or the money will be refunded. All the leading grocers in Jacksonville carry the Plantation Java in stock. For

This is the verdict of the sufferer from Rheumatism or Neuralgia after a faithful trial of Anker-Pain-Expeller. Mr. and Mrs. Michael Gell of Chicago, join in writing: "Our daughter, Miss Mary, was stricken with Rheumatism of the most violent nature. Several physicians were forced to acknowledge that the disease baffled their skill. After two doses of Anker-Pain-Expeller, given before the pain was too great to sleep, she slept for the first time in eight months without pain. Continued use of it has made her nearly well."

At seven o'clock this morning the thermometer registered 15 degrees above zero. Clear with west wind. At one o'clock p. m. the register was 42 degrees above zero. Clear with west wind. For the corresponding hours one year ago the register was 19 and 24 degrees above zero.

A Temperate but Satisfying Drink.

There has been of late years a demand for roasted coffee of the finest quality as to bouquet and strength in the cup. Dealers, in their efforts to supply this demand, have ordered all sorts of combinations, such as Mocha and Java, Mocha and Java, etc., without obtaining the elixir they sought. We take pleasure in informing our readers that after many years of search in the markets of the world, Messrs. Bell, Conrad & Co., the enterprising and reliable tea, coffee and spice men of Chicago, have secured a coffee that is a breakfast in itself. This coffee is their Plantation Java, which we take pleasure in recommending to our readers as the finest coffee grown, possessing strength and flavor the two essentials of a perfect coffee. This Plantation Java is strictly a private growth, and by special arrangement Messrs. Bell, Conrad & Co. will control all the crop. They guarantee the coffee to suit the most fastidious consumer or the money will be refunded. All the leading grocers in Jacksonville carry the Plantation Java in stock. For
